Education

East West University

B.Sc. in Computer Science and Engineering, 2026

CGPA: 3.48/4.00

Dhaka, Bangladesh

- **Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Database Systems, Operating Systems, Computer Networks, Software Engineering, Mobile Application Development

Technical Skills

Languages: TypeScript, JavaScript, Java, Kotlin, SQL **Frameworks:** React, Next.js, Node.js, Express.js, Spring Boot
Backend: REST APIs, Authentication, RBAC, Webhooks **Databases:** PostgreSQL, MongoDB, Prisma, Supabase **Tools:** Git, GitHub, Docker, Postman

Projects

Restaurant Operating System

2026

Next.js, React, TypeScript, Prisma, PostgreSQL, Supabase, Stripe

- Built a **production-ready restaurant SaaS** for a **real sushi restaurant client in Milan, Italy**, supporting dine-in, takeaway, delivery, and reservations.
- Engineered **RBAC, database models, APIs, business logic**, and integrated **Stripe PaymentIntents and webhooks**.

PKSF – Modern Digital Concept

2026

Next.js, React, TypeScript, Tailwind CSS

- Built an independent **modern PKSF website concept** using reusable React components, responsive layouts, accessibility-focused UI, and motion-driven interactions.
- **Live:** pksf-digital-experience.vercel.app

EWU FairRide: Fairness-Aware Ride Sharing

2026

Java, Firebase, Google Maps API, Weather API

- Developed a native Android ride-sharing app using **distance, traffic, weather, and route data** for fairness-aware pricing.
- Implemented **Firebase authentication, real-time synchronization, location tracking**, ride validation, and emergency location sharing.

Nour Ayni – Urdu Poetry Writing Platform

Personal

Next.js, TypeScript, Clerk, Tailwind CSS, Cloudinary

- Built an Urdu poetry platform with **rich-text editing, reusable templates, custom typography**, and responsive writing interfaces.
- Implemented **authentication, Cloudinary storage, debounced auto-save**, and PDF/PNG export.

Experience

Backend Developer Intern

Dec 2023 – Apr 2025

ForesightBytes

United States | Remote

- Developed **Java backend modules** for an ERP-based software system, implementing **business logic, database operations, data processing, and application workflows**.
- Debugged backend functionality and supported **testing, integration, and workflow validation**.

Education Consultant and Marketing Manager

Jun 2025 – Feb 2026

EdSparkle Education Consultancy

Dhaka, Bangladesh

- Managed client communication, application documentation, digital campaigns, and cross-functional project coordination.
